

FOR IMMEDIATE RELEASE

Meadow Lake Elementary Holds Penny Drive for CEAP

April 29, 2011 – Meadow Lake Elementary School raised over \$1,000 for Community Emergency Assistance Program (CEAP) through their recent Penny Drive.

Meadow Lake Elementary Student Council members hold a school wide penny drive every year under the leadership of council advisor, Jodi Markworth. Generally they do Pennies for Patients, but this year they decided to focus their efforts on helping a local organization within the community. Through their school social worker they were directed to CEAP and adopted the agency as this year's drive recipient.

The Penny Drive was held February 1st through March 25th, and the school collected a total of \$1,134.57 dollars for the charity. On April 29th, CEAP President Byron Laher was invited to Meadow Lake Elementary to speak to the students about CEAP and accept their donation.

CEAP is a charity dedicated to stabilizing individuals and families in financial distress and helping them to live independently and with dignity. CEAP has provided food, clothing, financial assistance, and other emergency services to the Twin Cities community for 40 years. To learn more about CEAP, and the services it provides, please visit www.ceap.com.
